

ULTRA-TUFF™

Dip Tank

SAFARI
BELTING

Chemical Resistance

Withstands continuous exposure to PAA, other strong acids & bases.

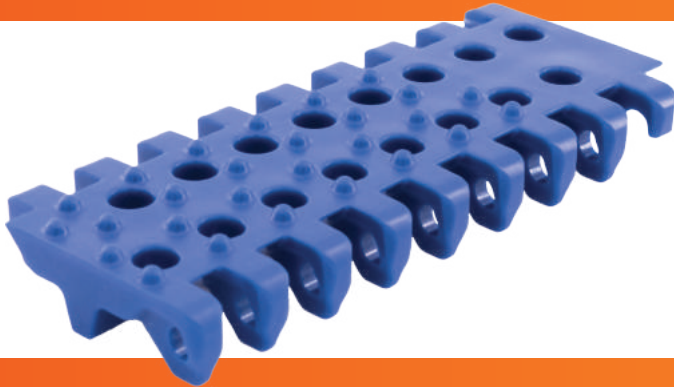

Impact Resistance

Maintains high impact strength for exceptional performance and operational stability.

Abrasion Resistance

Withstands abrasion from both friction and wear which more than doubles belt service life.

**CUSTOMER DOCUMENTED
ANNUAL COST SAVINGS
\$5,250 PER APPLICATION**

COST SAVINGS DETAILS

PROBLEM

Continuous exposure to PAA caused severe degradation to both wire and plastic belting. Belts required frequent repairs and quarterly replacement.

SOLUTION

Safari series 225 11/32" round hole ULTRA-TUFF™ belts built with scoop flights and molded side indents.

RESULTS

Safari ULTRA-TUFF™ belts have been installed 14 months. No broken modules. No issues. PROBLEM SOLVED!
