

# MODULAR PLASTIC SHACKLE TABLE

**SAFARI**  
BELTING

## Eliminates Safety Hazards

Modular Plastic Belting revolutionized conveyance when it was introduced in the early 1970's. In this application, replacing gravity rollers with industrial duty MPB, eliminated dangerous pinch points and fall hazards.

## Cost Effective

Modular Plastic Belting is less expensive than most other forms of conveyance. It is lighter weight, easier to maintain and easier to clean.

**CUSTOMER DOCUMENTED  
ANNUAL COST SAVINGS  
\$95,000 PER APPLICATION**

## PROBLEM

Application utilized a gravity roller design which presented pinch points and potential fall hazard to workers as they maneuvered Hogs on the Shackle Table. The Safari MPB solution was 37% lower in price and eliminated worker safety issues.

## SOLUTION

Customer replaced competitor's gravity roller design with Safari's 2.5" pitch Series 1800 industrial duty belt with stainless-steel rods.

## RESULTS

Safari Belting's solution improved worker safety while showing a consumption reduction cost savings of over \$95,000 annually.
